

- 1 Ball locking system for quick installation
- 2 No cutting edges: avoids damage to the cable electrical insulation

## Cable tie for high strength fixing

Made of stainless steel AISI 304 or AISI 316 with ball locking system, that enables quick installation and low insertion effort. This kind of cable tie is characterized by a high resistance to high temperature, to flame and corrosion.

### Advantages at a glance

- Ball-Lock type self-lock system, speeds installation
- Made entirely of high grade stainless steel, excellent corrosion and UV resistance.

### Applications

- Cable and pipe fixing in shipbuilding, offshore, petrochemical plants, oil rigs, and environments with a risk of fire.
- Used as flame safety in electrical installations to fix the metal I.D. plates, which must be preserved in the event fire.
- Installations where high mechanical and UV resistance are required (photovoltaic).

### Information

Our cable ties comply with the following directives:

- ABS (Product Approval)
- CE (Certificate of conformity)
- UL62275 (Cable management systems)
- Lloyd's Register
- DNV
- DNV GL
- RoHS

### Materials

Band: Stainless steel AISI 304 or 316

### Technical data & Ordering information

### Characteristics

- Working Temp: -80°C to +300°C
- Made entirely of Stainless Steel
- Flammability: Fireproof
- Other Properties: UV-resistant
